2. Business Activity and Results

The Lion Group is advancing initiatives based on three growth strategies under its medium-term management plan, Vision 2030 1st STAGE. These three strategies are “Accelerate growth in four fields of value creation,” “Transform our business foundations for growth” and “Generate dynamism to realize innovative change.”

In fiscal 2023 (January 1, 2023–December 31, 2023), against a backdrop of geopolitical issues and monetary tightening, the global outlook remained uncertain. The business environment surrounding the Group, especially in Japan, remained on a gradual recovery trend overall, despite the continued depreciation of the yen affecting the raw material prices to remain at a high level. Amid these circumstances, the Company introduced new high-value-added products in fabric softeners, laundry detergents and other products and focused on developing our mainstay brands.

Overseas, the economy was generally on a recovery trend, especially in our major markets such as Thailand and China. However, in China, there were signs of stagnation in the latter half of the period due to factors including the impact of decreased investment in real estate. In this environment, the Company focused on expanding in the personal care fields such as oral and beauty care, and bolstering competitiveness in the home care field including laundry detergents. Moreover, we invested in a healthcare company in Vietnam to create new growth opportunities.

Reflecting these efforts, consolidated results for fiscal 2023 are as follows. Net sales amounted to ¥402,767 million, a year-on-year increase of 3.3% (or a 1.3% increase at constant currency excluding exchange rate fluctuations). However, due to an increase in costs associated with competition and one-off expenses incurred in connection with the head office relocation, core operating income came to ¥20,133 million, down 14.5% compared with the previous fiscal year, and operating profit to ¥20,505 million, down 28.9% year on year. Profit for the period attributable to owners of the parent totaled ¥14,624 million, down 33.3% compared with the previous fiscal year.

4. Financing Activities

The Company did not conduct any financing such as capital increases or bond issues during the fiscal year under review. The Lion Group did not conduct any financing worthy of special mention.

5. Management Issues

The Group has set forth its management vision of “Becoming an advanced daily healthcare company” for 2030, and it aims to contribute to a sustainable society and grow its business by application of its stated purpose “Make a difference in everyday lives by redesigning habits: ReDesign,” and has formulated its medium- to long-term management strategy framework “Vision 2030.”

To achieve its management vision, the Lion Group must rapidly implement and realize results from the strategies of its 3-year medium-term management plan launched in 2022, Vision 2030 1st STAGE.

◇Management Strategies for Realizing the Management Vision

The Three Growth Strategies and Their Progress

(1) Accelerate Growth in four fields of value creation

In the field of oral health, we are creating new business opportunities that contribute to market expansion through fostering healthy living habits, such as starting Okuchi Plus You in July 2022 to support the well-being management (health and productivity management) of companies and local governments.

In China, which has been positioned as our highest priority country for business growth, we aim for a scale of ¥100 billion in sales by 2030, expanding sales areas, channels, and product categories starting with oral care.

(2) Transform Our Business Foundations for Growth

The new toothpaste factory in Sakaide City, Kagawa Prefecture, completed in 2021, has been positioned as one of the Group’s main toothpaste production facilities, and we will make maximum use of it to establish an efficient and sustainable production and supply system.

We have launched new core systems in 2022 and are working on the prompt output of management information such as demand and supply planning, procurement, production, and sales, as well as the enhancement of management control and supply chain management using such information.

With respect to the establishment of a foundation for growth for our overseas business, we have achieved the goal in our medium-term management plan of entering two new countries: Bangladesh (2022) and Vietnam (2023). Going forward, we will aim to get business on track as soon as possible in the above two countries and continue to explore further countries to enter.

(3) Generate Dynamism to Realize Innovative Change

We have revamped our human resource management system, including personnel compensation systems and human resource development systems, to enhance organizational capabilities through promoting the autonomous growth of employees and creating highly specialized human resources.

In addition, to help each and every employee realize their life plan and lifestyle, we are enhancing systems that allow more flexible work styles and promoting the improvement of a comfortable office environment, including relocation to a new head office.

Reinforce Initiatives to Address the Sustainability Material Issues

Regarding “promoting environmental initiatives for a sustainable planet,” which is positioned as a top-priority material issue, we are promoting initiatives for resource recycling in collaboration with local governments and other companies and the development of resource-saving products. Similarly, in terms of “creating healthy living habits,” we are advancing measures such as launching a service-based business that proposes new oral care habits.

In addition, we have conducted scenario analysis according to the Task Force on Climate-related Financial Disclosures (TCFD) framework regarding the risks and opportunities posed by climate change to the Company and disclosed the results in 2023.

◇Progress and Issues

As a result of implementing measures based on the three growth strategies, consolidated net sales has exceeded the growth rate of the three years before the start of this plan, achieving a certain level of “gear change toward accelerated growth” as set out in our medium-term management plan. In particular, in our overseas business, where we aim to achieve a sales composition ratio of 50% by fiscal 2030, we have expanded our presence in existing countries and areas, including China, and the sales composition ratio for the fiscal year ended December 31, 2023 has steadily increased to 33%.

However, regarding profit, we have not reached the initially targeted level due to the impact of the increase in raw material prices caused by the global surge in resource prices and the underperformance of new products in the domestic fabric care field, which had been launched with high targets.

In light of these circumstances, the Group views this year, the final year of Vision 2030 1st STAGE, as a year of rebuilding the foundation for the next medium-term management plan, and we will push ahead with the restructuring of low-profit businesses, a review of the business portfolio through the allocation of management resources, and efforts to improve operational efficiency even stronger. At the same time, we will sharpen investment in priority countries and areas, as well as in fields, and aim to enhance corporate value toward the realization of our vision for 2030.

3. Compensation, etc. Received by Directors and Audit & Supervisory Board Members

(1) Policy for Determining the Amount of Compensation, etc. Received by Directors and Audit & Supervisory Board Members and Details of the Policy

Policy for determining the amount of compensation, etc. received by directors and Audit & Supervisory Board members and details of the policy for the fiscal year under review are as follows.

(i) Method of determination of policy

The Company respects the reports of the Compensation Advisory Committee as much as possible in order to increase the objectivity and transparency of director and Audit & Supervisory Board member compensation, etc., and the policy regarding compensation, etc. of directors and Audit & Supervisory Board members (hereinafter "corporate officers") is decided by the Board of Directors for directors and the Audit & Supervisory Board for Audit & Supervisory Board members. The Compensation Advisory Committee consists of seven members: four external directors, three external Audit & Supervisory Board members.

(ii) Basic Policy on compensation of directors and Audit & Supervisory Board members

Lion has designed a corporate officer compensation system to provide sound and appropriate incentives necessary for retaining outstanding management talent that will achieve the Company's management policies and continuously increase its corporate value over the medium to long term.

Director and Audit & Supervisory Board member compensation is decided by the Board of Directors and the Audit & Supervisory Board, respectively, based on consultations with the Compensation Advisory Committee. Compensation is set within the limits decided by resolution of the General Meeting of Shareholders.

Compensation for directors (excluding external directors) consists of fixed monthly compensation and performance-linked compensation (bonuses and stock-based compensation). Compensation for external directors and Audit & Supervisory Board members shall be fixed monthly compensation only. The compensation level shall be objectively benchmarked with reference to survey data from external specialized organizations and set for each role and responsibility of corporate officers.

The compensation for directors excluding external directors is made up of approximately 50% fixed compensation and 50% performance-linked compensation (30% of which is bonus and 20% stock-based compensation) according to the director's rank. The proportion of performance-linked compensation increases according to rank and is revised as needed. Fixed compensation is raised or lowered once per year according to the degree of performance of the management oversight function of each director, performance of the business execution in their responsibilities, and contribution to sustainability material issues. Performance-linked compensation is calculated based on the degree to which performance targets have been met in each year and is paid individually at a designated time after the end of the relevant year.

Bonuses for performance-linked compensation shall be the total amount of 50% of the 0.5% of core operating income for the relevant fiscal year and 50% of the 0.75% of profit attributable to owners of the parent (rounded down to the nearest ¥10,000) to each director, and the upper limit shall be ¥250 million. However, if each of the above profits is a loss, the profit amount is calculated as 0.

Stock-based compensation of performance-linked compensation consists of a "fixed portion" to be granted in each fiscal year and the "performance-linked portion" granted according to the degree of achievement of performance targets for each fiscal year during the medium-term management plan, and the ratio of "fixed portion" and "performance-linked portion" shall be 1/2 of the stock compensation base amount determined by position.

In addition, stock-based compensation may be requested for confiscation of granted share award points or return of the equivalent amount of shares delivered in the event of a material violation of

the duties of directors or internal regulations.

A summary of the above basic policy on executive compensation and details of the basic policy shall be resolved by the Board of Directors after consulting with the Compensation Advisory Committee and shall be disclosed in business reports, annual securities reports, etc.

(2) Indicators Used to Calculate Performance-Linked Compensation

Performance-linked compensation, which comprises bonuses and performance-linked stock-based compensation, is calculated using two indicators. The first is core operating income, which the Company uses to measure regular business performance and is one of the most highly prioritized income indicators under the medium-term management plan. The second is profit for the period attributable to owners of the parent, which is the final result of business activities and is directly linked to shareholder value.

The achievements in the fiscal year under review for the goals of the indicators are shown in the following table.

Indicator as a goal	Target value	Achievement	Achievement rate
Core operating income	¥25,000 million	¥20,133 million	81%
Profit for the period attributable to owners of the parent	¥17,500 million	¥14,624 million	84%

(3) Calculation method of bonuses to corporate officers

Bonuses to each corporate officer will be paid in an amount calculated and determined based on the following method. The payment per point is calculated by dividing the total payment amount determined by “(1)(ii) Basic Policy on compensation of directors and Audit & Supervisory Board members” above by a total number of points comprising the sum of all points awarded to directors. The total points assigned to each rank of directors is determined by multiplying the number of directors in office in said rank as of the end of the relevant fiscal year by the number of points specified for that rank. Individual payments to each director are then calculated by multiplying the points specified for that director’s rank by the payment per point as calculated above (rounded down to the nearest ¥10,000).

(4) Calculation of Performance-Linked Stock-Based Compensation

In performance-linked stock-based compensation system, the number of points (number of shares) to be granted to directors per fiscal year is determined via a calculation made by the method below. In principle, shares are issued to directors upon retirement from office in a number equivalent to the number of points they have accumulated. The maximum total number of points to be granted to eligible corporate officers per fiscal year shall be 120,000 points (one share of the Company’s stock per point).

The number of points for each corporate officer eligible for payment is determined individually using the following formula.

Number of points =	$\frac{(\text{Fixed base amount} + \text{Performance-linked base amount} \times \text{Performance-linked coefficient})}{\text{Per-share acquisition cost}}$
--------------------	---

The fixed base amount is calculated using the coefficient set for each rank, and the performance-linked base amount is the same amount as the fixed base amount. The performance coefficient is calculated based on the degree to which targets for core operating income and profit attributable to owners of parent have been achieved.

(5) Reasons the Board of Directors Has Deemed That the Amount of Compensation, etc. Received by Individual Directors for the Fiscal Year Under Review Complies with the Policy for Determining the Amount of Compensation, Etc.

Regarding the compensation, etc. received by individual directors for the fiscal year under review, as the Board of Directors has confirmed that the method for determining the amount of compensation, etc. and the amount of compensation, etc. are consistent with the policy for

determining the amount of compensation, etc. and that reports of the Compensation Advisory Committee were respected, the Board of Directors has deemed that the compensation, etc. complies with the policy.

4. Total Amount of Compensation, etc. for Directors and Audit & Supervisory Board Members

Classification	Number of Corporate Officers	Fixed compensation	Performance-linked compensation		Total

Resolutions of the Board of Directors may be made at the regular Board of Directors meetings, as well as in writing in accordance with laws and regulations. For important corporate strategies such as the basic policies of medium- to long-term management plans, a system is established that enables the Board of Directors to make appropriate decisions upon deliberation by the Senior Executive Committee. Additionally, the Executive Committee has a system in place to discuss and examine, from various angles, measures related to job execution that directly impact businesses.

The committee consists of eight members: external directors Takashi Shiraishi (committee chairman), Kazunari Uchida, Takako Sugaya and Reiko Yasue; as well as external Audit & Supervisory Board members Atsuko Suzuki, Masatoshi Matsuzaki and Akemi Sunaga; in addition to Masazumi Kikukawa, Chairman of the Board of Directors. Promoting Environmental Initiatives for a Sustainable Planet

■ Lion Group's Plastic Challenge

Lion Group is promoting various initiatives to realize a resource-circulating society. We aim to minimize the amount of resources used in our business, recover resources after use, and effectively reuse or utilize valuable resources in our business.

3R + Renewable for reducing containers and packaging materials

Reduce usage – Make containers and packaging smaller and less –

By concentrating laundry detergents, fabric softeners, kitchen detergents, and other products, we aim to reduce their volume and thus achieve the downsized containers. We also aim to promote lightweight design through advanced design technology.

Reuse – Increase refill products –

The plastic body containers can be used repeatedly by refilling the contents. In addition, film packaging used in refill packs can reduce the amount of container materials compared to the body containers.

Recycle – Actively use recycled materials –

We actively use recycled plastic in our products and containers. We use recycled PET resin from beverage PET bottles, etc. for the body containers of laundry detergents and kitchen detergents, and blister packaging of toothbrushes.

Renewable/Recyclable– Use of sustainable resources –

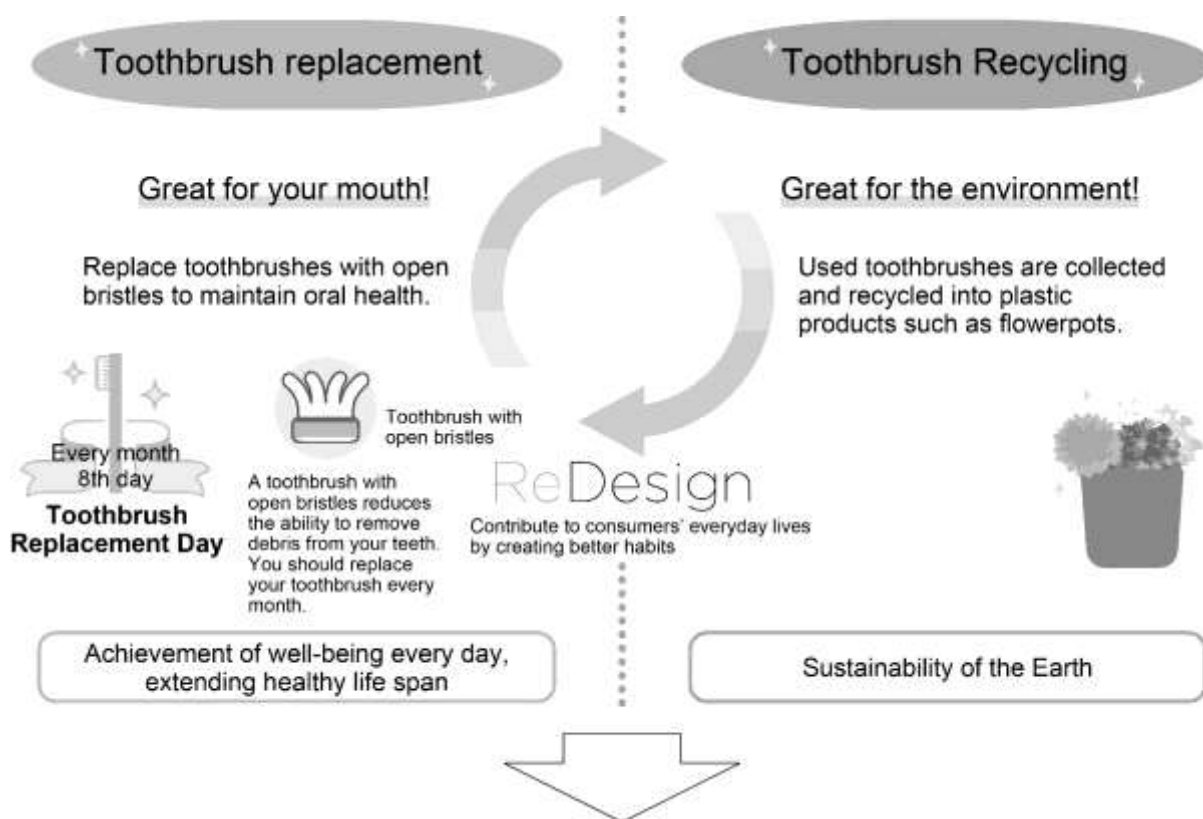

We use biomass plastic (plant-derived plastic) for the containers and packaging materials of certain products. We also utilize mono-material film packs* that are easy to recycle.

* Refill packs made mainly from one packaging material or at least from the main material of one group of packaging materials.

■ Foster waste-free habits

We will contribute to a decarbonized and resource-circulating society by promoting the creation of environmentally friendly habits with consumers, or equivalently, providing planet-friendly lifestyles and making daily life more sustainable. We are promoting the fostering of waste-free habits through programs that allow consumers to participate.

Toothbrush recycling program

Recycled materials from toothbrush recycling are used in cat litter boxes

Domestic Group company Lion Pet Co., Ltd. is currently rolling out the Love Cats Love Earth Sakura Project, through which it donates cat litter boxes and cat litter sets to support people fostering rescue cats. 10% of the material being used for the cat litter boxes are recycled plastics sourced from toothbrush recycling.

Pilot film-to-film recycling of used refill packs

Film-to-film recycling of film packaging used in refill packs

In September 2020, we announced that we would be collaborating with Kao Corporation to help realize a circular economy for plastic packaging. Together, we have been collecting used refill packs at some stores in Japan. We have used recycled materials collected in this initiative to make a limited production run of the refill packs for TOP SUPER NANOX for Odors XXL, a highly concentrated laundry detergent launched in May 2023.

Opinion

Pursuant to Article 444, paragraph 4 of the Companies Act, we have audited the accompanying consolidated financial statements, which comprise the consolidated statement of financial position, the consolidated statement of income, the consolidated statement of changes in equity, and notes to the consolidated financial statements of Lion Corporation (the "Company") applicable to the fiscal year from January 1, 2023 to December 31, 2023.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position and results of operations of the Group, which consisted of the Company and its consolidated subsidiaries, applicable to the fiscal year ended December 31, 2023, in accordance with accounting principles that omit certain items required by International Financial Reporting Standards ("IFRSs") as permitted by the provisions of the latter part of Article 120, Paragraph 1 of the Regulations on Corporate Accounting.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Other information consists of the information included in the Company's business report and supplementary schedules, other than the consolidated financial statements and our auditor's report thereon. Management is responsible for the other information presentation.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection to our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management, Audit & Supervisory Board Members and the Audit & Supervisory Board for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles that omit certain items required by IFRSs as permitted by the provisions of the latter part of Article 120, Paragraph 1 of the Regulations on Corporate Accounting, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern and disclosing, as required by accounting principles that omit certain items required by IFRSs as permitted by the provisions of the latter part of Article 120, Paragraph 1 of the Regulations on Corporate Accounting, matters related to going concern.

Audit & Supervisory Board members and the Audit & Supervisory Board are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.
- In making those risk assessments, we consider internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the purpose of the audit of the consolidated financial statements is not expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation in accordance with accounting principles that omit certain items required by IFRSs as permitted by the provisions of the latter part of Article 120, Paragraph 1 of the Regulations on Corporate Accounting.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit & Supervisory Board members and the Audit & Supervisory Board regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit & Supervisory Board members and the Audit & Supervisory Board with a statement that we have complied with the ethical requirements regarding independence that are relevant to our audit of the consolidated financial statements in Japan, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied to reduce threats to acceptable levels.

Conflicts of Interest

We have no interest in the Company and its consolidated subsidiaries which should be disclosed in accordance with the Certified Public Accountants Act of Japan.
