Company Overview

·Lion's History and Purpose

•Management Plan for 2030

Overseas business drove net sales growth, accounting for 36% of consolidated net sales In 2024, profit structure recovered somewhat from deterioration due to internal and external business factors

Achieve- ments	 Continued growth in Overseas Business: 14.7% CAGR (2021→2024) Continued growth, primarily in China and Malaysia; improvement in profit margins and an increased share of business from personal care products Launched business operations in Bangladesh and Vietnam, aiming for future growth Oral care growth: CAGR (2021→2024) 3.3% (domestic), 11.1% (overseas) Oral care business drove Group growth Starting small in Japan with multiple service businesses for future growth opportunities
	✓ Further acceleration of improvements in profitability

✓ Further acceleration of improvements in profitability
 Profitability has declined since 2022 due to rising raw material prices, etc.

 →Implemented structural reforms and saw some profitability
 enhancement in 2024

Challenges

✓ Transition to a business that emphasizes efficiency
 Profits from launches of multiple large-scale new products fell short of initial
 plans, and upfront investments are putting pressure on the profit structure

 → Need to enhance efficiency through business portfolio review and the
 sharpening of resource allocation

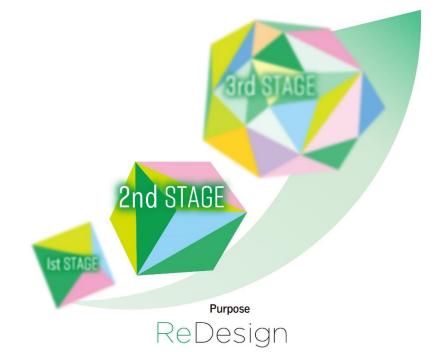

Work to strengthen profitability and transition to management that further emphasizes the efficiency of invested capital

Create new value across the Group

During 2nd STAGE, aim to improve profitability by setting EBITDA margin, ROIC and EPS CAGR as key indicators

(Billions of yen)	2027 Target 2024	Change		
		2024	Amount	%
Net sales	450.0	412.9	37.0	9.0
Core operating income* ¹ % of net sales	40.0 8.9	26.3 6.4	13.6	51.9
Operating profit % of net sales	40.0 8.9	28.3 6.9	11.6	40.9
Profit for the period attributable to owners of the parent	29.0	21.1	7.8	36.8
EPS (Yen)	104.67 CAGR 11% or higher	76.51	28.16	36.8
EBITDA margin (%)* ²	13% or higher	10.9%		
ROIC (%)*3	8-9%	5.8%		—

Notes 1. Core operating income is an earnings indicator the Company uses to measure regular business performance by subtracting selling, general and administrative expenses from gross profit.

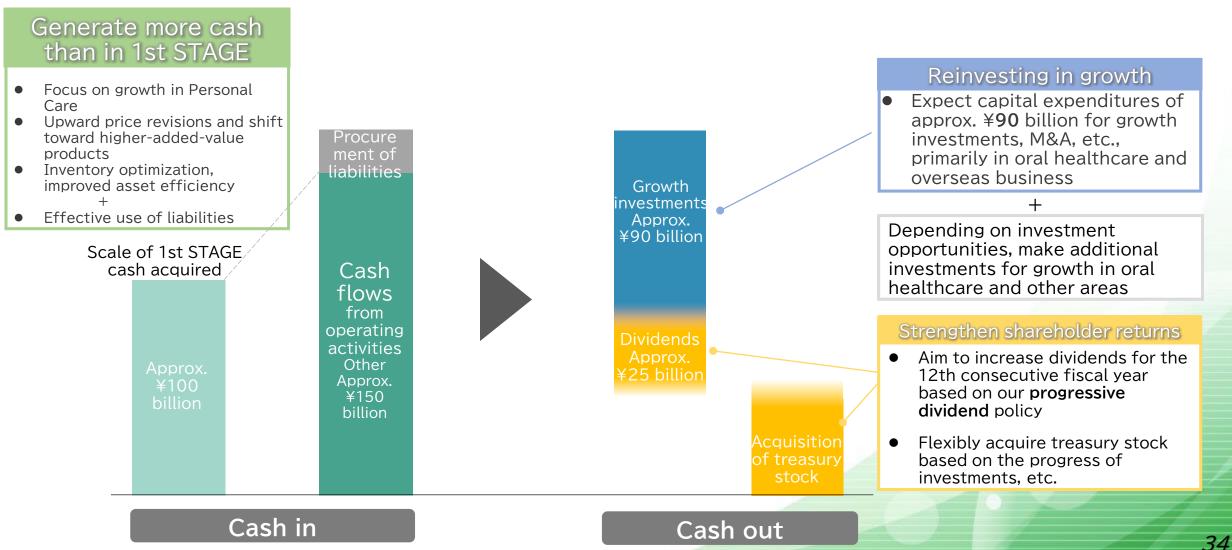

2. EBITDA margin: The ratio of EBITDA to consolidated net sales.

3. ROIC is an indicator calculated from net operating profit after tax (NOPAT) divided by the average invested capital (total equity plus interest bearing liabilities) during the period, and measures the efficiency and profitability of the invested equity.

2nd STAGE Cash Allocation

Obtain more cash than in 1st STAGE, and strengthen growth investments in key areas and shareholder returns

Strengthen profitability and plan to increase sales and profits Y-o-Y

(Billions of yen)	2025 2024		Y-o-Y change
